- Submit a report immediately after receiving one specimen for detection of the agent. Report receipt of subsequent specimens within five working days after receipt.
- Submit a report within 24 hours after obtaining a positive test result.
- Submit a report within one working day after obtaining a positive test result.
- Submit a report within five working days after obtaining a positive test result or a test result specified on this page.
- Submit an isolate of the organism for each positive culture to the Arizona State Laboratory at least once each week, as applicable.
- For each positive test result, submit a specimen to the Arizona State Laboratory within 24 hours after obtaining the positive test result.
- When reporting a positive result for any of the specified tests, report the results of all other tests performed for the subject as part of the disease panel.
- Submit a report only when an initial positive result is obtained for an individual.
- Submit an isolate of the organism only when an initial positive result is obtained for an individual, when a change in resistance pattern is detected, or when a positive result is obtained ≥ 12 months after the initial positive result is obtained for an individual.

R9-6-204. Clinical Laboratory Director Reporting Requirements

http://www.azdhs.gov/phs/oids/reporting/labs.htm

For each **specimen** for which an immediate report is required a clinical laboratory director shall submit a report that includes:

- 1. The **name** and, if available, the **address and telephone number** of the subject;
- 2. The date of birth of the subject;
- The gender of the subject;
- 4. The laboratory identification number;
- The specimen type;
- 6. The date of collection of the specimen;
- 7. The type of test ordered on the specimen; and
- 8. The ordering health care provider's name, address, and telephone number

For each **test result** for which a report is required a clinical laboratory director shall ensure the report includes:

- 1. The name and address of the laboratory
- 2. The name and telephone number of the director of the clinical laboratory;
- 3. The **name** and, if available, the **address and telephone** number of the subject;
- 4. The date of birth of the subject;
- 5. The **gender** of the subject;
- 6. The laboratory identification number;
- The specimen type;
- 8. The date of collection of the specimen;
- 9. The date of the result of the test;
- 10. The type of test completed on the specimen;
- 11. The test result, including quantitative values if available; and
- 12. The ordering health care provider's name, address, and telephone number
